DESIGN STUDIO I.

ER-ARCH-BA\_101\_1

Teachers:    Börzsei Tamás (+36 20 7769 847, [borzseitamas@gmail.com](mailto:borzseitamas@gmail.com))  
Vass-Eysen Áron (+36 70 212 9 828, [aron@bivak.io](mailto:aron@bivak.io))

DESIGNING TASKS:

„A” task:    **Collaborative , team working:**  
Survey and processing of an existing building or construction by visual plans, technical drawings and models.  
Research of contemporary examples in similar scales and tasks. Analyzing the effects and the principles of these architectural examples.  
Each group has 4 members. It is starting with the full documentation of the chosen site. Every group has to prepare the drawings and model about the site for the following consultation. Consultations in groups.

„B” task:    **Individual task:**

**Demandings :**

- minimum one model for all weeks, and sketches
- model of the final design
- site plan in a proper scale
- floor plans. views, sections, elevations
- sketches, rendering, models, for every consultation
- uploading all the work to a common blog
- uploading all the work to an archive

**preliminary design (show for task “A”): 2022.10.25.**

**final design (show and a small exhibition of the models) : 2022.12.12.**

**Valuation of the work:**

<b>presence, activity, thinking in group</b>	<b>33,3%</b>
<b>presentation, visualization</b>	<b>33,3%</b>
<b>innovation, creation</b>	<b>33,3%</b>

**Programs and deadlines of semester:**

<b>Dátum</b>	<b>feladatok, határidők</b>
2022-09-06	meeting at the mome, introduction of task „A” assemble the groups
2022-09-13	presentation of the research and the chosen site
2022-09-20	Consultation A
2022-09-27	Consultation A
2022-10-04	Consultation A
2022-10-11	Consultation A
2022-10 17-21	preparing for the presentation
2022-10-25	presentation of task „A”, introduction of task „B”
2022-11-08	presentation of the research and the chosen site
2022-11-15	Consultation B
2022-11-22	Consultation B
2022-11-29	Consultation B
2022-12 05-09	preparing for the presentation
2022-12-12	<b>final presentation (task “A” and “B”) choosing the design, which will be realized</b>

The purpose of Design Studio 2 is to expand and deepen your knowledge of architectural and interior design. The semester's defining design task is to design simple-function but character structures. Examining and managing the structure and its surroundings together, understanding the relationships is an important aspect. The aim is to continue to explore and apply a consistent approach to architectural and interior design frameworks, embedded in an environmentally dependent landscape architecture and / or urban context, for such a simple program building or pavilion. An integral part of the specific design task is preliminary research, which includes exploring, analyzing, understanding and evaluating past and contemporary analogue situations. In the conception and design process, the requirements of the discipline (especially the structural and technological) must also be taken into consideration! During the semester, a structure (also) must be planned which will be possible to construct during the summer construction practice. Individual planning and evaluation of results is followed by selection and subsequent community planning.
