

### **Indigo and other natural dyes**

For Erasmus BA and MA students, we would like to offer a course week course for students from all degree programmes. Participants will be introduced to dyeing with natural materials. The pro's and con's will be discussed. They will also learn about the history of Hungarian blue dyeing and about indigo dyeing techniques used in other countries.

In the practical part of the course, we will make textiles dyed with indigo and patterned with different resin techniques.

In the practical part of the course, we will make textiles dyed with indigo and patterned with different resin techniques.

### **Course recommendation:**

This course is recommended for those who may not have previously studied textile dyeing but are interested in natural alternatives to textile coloration

### **Course requirements:**

To complete the course, participation on the course days and the production of 5 textiles are required.

**Course Code: ER-TECHPARK-BA-KH-252601-02**

**Screen printing workshop, TWO \_112**

**Course instructors: Anikó Varga, Veronika Bajcsi-Juhász**
