

Course description (topics)

Title of the course: Mentoring				
Tutors of the course , contact details: Tibor Bánóczy, banoczki.tibor@mome.hu				
Code:	Related curriculum (programme/level):	Recommended semester within the curriculum: 1.	Credit:	Number of class hours: Student working hours:
Related codes	Type: (seminar/lecture	Can it be an elective course? No	In case of elective what are the specific prerequisites: N/A	
Course connections (prerequisites, parallelis): No				
<p>Aim and principles of the course: The goal of the course is to provide students with a comprehensive knowledge of the trends, problems and innovations of the various genres through the recent years in the field of animated projects including films and reemerging forms (XR, VR, Games, etc.)</p> <p>During the course student will analyze recent graduation films and the outcome and results of these works affecting the author's career path.</p> <p>Analyzing the current state of the animation industry, several successful and failed career paths will help the students foresee the possibilities, advantages and disadvantages in their upcoming works.</p> <p>An important aspect is that the students will get knowledge and deeper understanding the rules and mechanic of the animation industry (both artistic and the entertainment sector). Discussing the different methods to approach a professional life will develop their ability to pre-analyze their projects towards the graduation year and learn the different methods to start such work. As a preliminary step, we will start thinking about the thesis, preparing the development of the thesis. The aim of the workshop is to strengthen the community, think together, reflect on each other's work.</p> <p>Having different goals and possible career path, the course aim to analyze wide range of genre, style, which helped the contemporary animation artist to find their way in the animation profession from the arthouse short film to the giant streaming companies animated projects.</p>
