Recommendation

Short Description

Goal of Internship is to have an opportunity for the student to apply his/her design knowledge, attitude and (soft) skills acquired during his/her studies in MOME in real life.

Graduation is only possible if a professional internship of 80 hours has been fulfilled in the area of design. Internship must be proved with the submission of a completed and signed (by the employer) MOME Internship form.

Students can complete their internship any time during their studies but it should not interfere with their courses and academic performance.
